

INTRODUCTION

Al Ajzl Group is a Saudi firm specializing in the field of integrated **SECURITY & COMMUNICATION** systems

Al-Ajzl Group , based in Riyadh (Kingdom of Saudi Arabia), are devoted to protecting people and assets from everyday hazards and danger by providing and maintaining high quality Security , CCTV Surveillance & Fire solutions, for businesses and individuals throughout Kingdom of Saudi Arabia .

We are expertise in the Fire and Security industry, **Al-Ajzl Group** have the knowledge and experience to provide Fire and Security solutions that effectively meet client expectations.

By only supplying Fire Protection, Security Systems and CCTV Systems from leading manufacturers, **Al Ajzl Group** have a complete line of equipment and services that comply with the highest standards of the Fire and Security industry.

Al Ajzl Group specialize in the design, supply, installation, servicing and commissioning of Fire - Security - CCTV solutions.

PRODUCT RANGE

Al Ajzl Est. exercises great discretion in the selection of products for its systems. We make sure the products and brands are as per the latest technology and among the best available internationally. This helps us deliver systems to achieve performance levels that exceed expectations.

Below is the list of products and systems we deal in:

SECURITY SYSTEMS

- Closed Circuit Video Surveillance (CCTV) Systems
- Access Control Systems - Conventional and Biometric
- Perimeter/Fence Breach Alarm Systems
- Burglar Alarm Systems
- Gate Barriers, Parking Systems, Bollards and Spikes
- Pedestrian Barriers, Turnstiles and Anti-tailgating
- Face Recognition Systems
- Licence Plate Recognition Systems
- Covert Audio, Video Surveillance and Counter Surveillance Systems
- Contraband Detectors - Narcotics, Explosives, Metal Detectors, X-Ray Systems
- Remote Audio/Video and Alarm Management Systems over LAN/WAN/PSTN/GSM
- Fire Alarm Systems
- Guard Tour and Key Watcher Systems
- Audio/Video Doorphone Systems

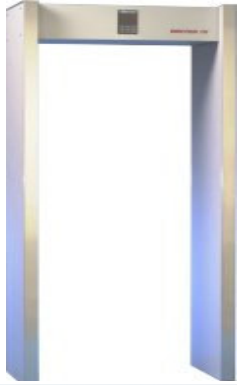

COMMUNICATION SYSTEMS

- Broadband Networks (CATV/SMATV/HFC)
- Sound Systems (Public Address, Background Music, Sound Reinforcement)
- Conference Systems with Simultaneous Interpretation
- Teleconferencing (Audio/Video)
- Projection Systems (Home Theater, Multimedia)
- Nurse Call and Hospital Communication Systems
- Special Intercom and PABX Systems
- Class Room Multimedia Instructional & Media Retrieval Systems
- VSAT Communication Systems

OTHER PRODUCTS AND SYSTEMS

- High Capacity UPSs and Frequency Converters
- Specialty Coaxial and Fiber Cables
- Computer Networking

**A Complete Range of
Scanning Systems**

**Walk through Metal
Detectors**

**Postal Scanning for
Letter Bombs & Drugs**

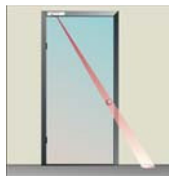

**Baggage Scanners X-
Ray Systems**

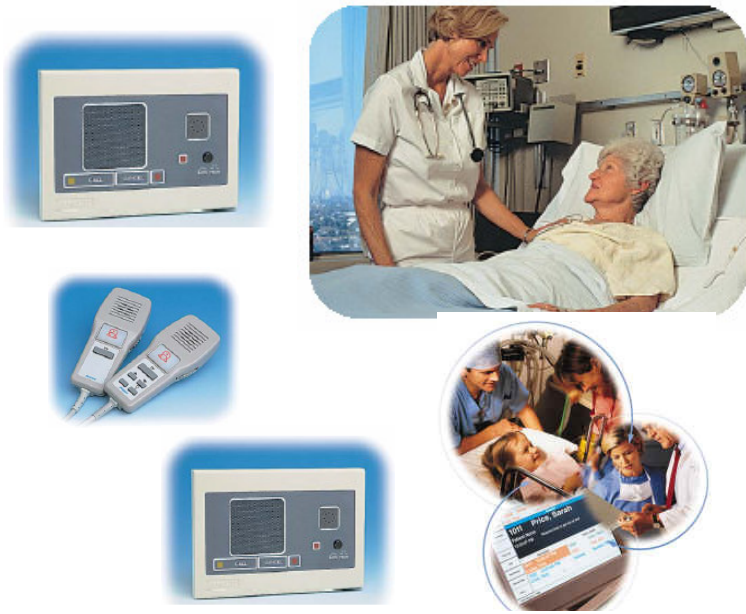

**A Complete Range
Barriers , Road
Blockers & sliding
Gates integrate with
existing Access**

**Complete Range
CCTV System.
Matrix.
Dome Camera's
Switcher's &
Monitors**

**Complete
Access
Control
System for
Building
Parking &
for Secure
Area (Finger
Print
Readers)**

**A Complete Range of
Nurse Call System
Covers the entire
Hospital**

**Complete Home &
Office Security with
Infrared Beams and
Buglar Alarm**

OUR PRINCIPALS

In order to maintain uniformity in our systems and ensure their integrability, we have firm agreements in place with leading manufacturers of the world for our core products. Due to our long term relationships with our equipment suppliers, we are able to achieve a steady and consistent source of quality products that go into our integrated systems. Apart from this, our engineers gain a deep understanding of the product through intensive association and interaction with the suppliers, factory training and regular technical presentations by our principals' experts. Again, due to a close relationship with the principals, we benefit from their latest product and technological updates and prompt assistance on technical and service issues.

Here are some of our principals/suppliers of our key equipment:

- Vicon Industries Inc., USA for CCTV Systems
- Kantech, Canada for Access Control Systems
- DSC, Canada and Sentrol, USA for Intrusion Alarm Systems
- Aerotek-CSIR for Perimeter Breach Alarm Systems
- Menvier, UK for Fire Alarm Systems
- Morse Watchmans, USA for Guard Tour and Key Watcher Systems
- Scanna UK , for metal Detectors , Baggage Scanning & Handheld Detectors
- Silent Witness, Canada for special purpose CCTV cameras
- Audix, UK for Sound Systems
- Auditel, UK for Conference Systems
- Telecor, Canada for Intercom Systems
- Avon Barriers for barriers & Road Blockers
- Hirschmann, Germany and Ikusi, Spain for CATV Systems
- Inteltec, Australia for Nurse Call Systems
- DASK, Norway for Projection Systems
- Elesys, UK for Audiovisual Systems
- Matra, France for VSAT Systems
- Statron, Switzerland for UPS and Converters

OUR STRENGTHS

Al Ajzl Est. is well equipped with all the facilities and resources required for the timely and successful execution of projects and ensure customer satisfaction.

- A wealth of experience and expertise as systems integrators
- Engineers trained by principals on their latest products and technologies
- All services under one roof - from concept to commissioning
- High level of sophistication in products and system design
- A problem solving approach to understanding clients' needs
- One of the top engineering houses in the field of security and communication systems
- A network of reputed international suppliers of quality products
- A full technical and management team committed to customer satisfaction
- A well developed infra-structure for logistics, services, project management & Maintenance
- Full complement of manpower for project engineering, execution and after-sales services
- A commitment to Quality
- Proven track record and experience in handling large, high profile projects
- Ability to render turnkey contracts
- Kingdom-wide coverage
